

Roomcast™

Specifications | TA-2400

Roomcast makes it really simple for guests to stream content from their favourite services to the guestroom TV. There is nothing for the guest to download, no email address required and no password to remember. All a guest has to do is join a secure, private wireless network and cast. Roomcast brings the same Google Chromecast experience that millions enjoy every day in their own homes to hotel guests.

Features

[More information: Roomcast Brochure](#)

- Guest streaming content via Chromecast
- Using cast enabled apps that work for both iOS and Android devices
- Bluetooth for wireless audio streaming
- An HDMI port on the rear of the Roomcast can be connected to a HDMI module to provide guest facing HDMI.

Remote remote-control options

- Dial Remote

Designed for Roomcast the dial remote offers the best experience for the guest to navigate the on-screen menu. Guests will recognise the dial with logo and instructions printed on the top and instantly know that video casting service is available as soon as they enter in the room.

TA-2401-A01, Black

TA-2401-W01, White

- Hand held Remote

This small and easy-to-use remote is another option for the guest room.

Customised User Interface Service

[More information: Roomcast Custom UI Guide](#)

The custom UI option is available if you wish to customise the Roomcast menu and welcome screen on the TV. We can add your logo, your chosen background colour or image and button colours.

- Please ask for pricing for UI customisation.

Roomcast mounting options

- Mounting bracket included, place out of sight behind the TV or under a desk.

Roomcast™

Roomcast Support Site – rc.teleadapt.com

Create your personal Roomcast Home. TeleAdapt will assign a system ID and PIN code for the property and provide a unique access to this central repository for Roomcast.

- Software updates
- The latest install guides
- Custom UI plus the configuration file if applicable
- User Statistics (coming Soon). The Roomcast metric reports on key user events.

Roomcast Installation - Setup Wizard

The Setup Wizard steps through the key configuration parameters for Roomcast and runs only once, on initial startup. If setting up multiple units the parameters can be saved in a clone file on a USB drive for fast deployment.

Rear Connections

[More information: Roomcast Rear Connections](#)

Roomcast can provide additional guest facing connectivity

- HDMI socket to offer guests an auto-sensing HDMI port.
- LAN connection to provide a guest facing Ethernet socket

In-room Marketing

- Use a deskcard to further promote your guest streaming service.
